**"The Ocean Room"** – the second installment of the highly-rated preschool reality series "The Jungle Room" – follows the unpredictable and real preschool adventures of seven new charismatic kids aged three to six.

From having fun belting out songs to dealing with real-life issues like the death of the classroom goldfish and going to the dentist, each episode takes us into the unscripted world of preschoolers.

The enchanting bright coral reef cave and blue 'water' streamers reflect the season's ocean theme while the seal puppet Blue replaces Moxey, the much-loved monkey puppet from "The Jungle Room."

Special deliveries arrive via treasure chest and a fun guest – ranging from a fire-fighter to a magician – appears each episode to introduce the kids to something new. Teacher Anthony Randall returns for the second installment.

**NOTE:** Each 22 minute episode is made up of two 11 minute segments.
